At the bottom of the page, the **Total Charges** section summarizes your Yearly and Monthly charges.

Note: If you have multiple POS terminals in the same store, you will only pay premium software subscription fees by location, rather than for each terminal. Any other NRS POS terminal at the same location will only pay the standard terminal MRC, but will have access to all of the same features!

Tap **Submit** to save your updates. Next, tap on **RECHECK STATUS**. This will pull the newly added features into your POS terminals and give you access to the new feature immediately.
