

MAY 2021 RELEASE NOTES

5/24/21

We have added features requested by merchants to improve our POS and provide more flexibility and control.

Your Terminal ID is now shown on your POS Home Screen

You can see your terminal ID on the Home Tile Screen, to expedite customer support service.

Customizing Departments One-Click Items and In-Store Items

Merchants can now customize the layout of the department, one click items, and in-store items in the register tile. Simply select and hold the department or one click item you want to move until the moving border shows then tap the position on where you want the item to move. Tap once again to insert. Keep in mind these layout changes will carry over to any synced terminals on the location.

Manual Birth Date Entry for Age-Verified Products

Merchants who want to manually type date of birth for age verified products can now enable this feature on the admin page tab in the tools section. (Optional)
