

## NRS Petro Release Update 2.2 - December 2022

### Quick Receipt for Credit Pre-Authorizations

A temporary receipt that represents the credit pre-authorization can now be generated for credit authorizations. Click the authorized pump tile to open the dialog pictured below. Click the Quick Receipt button.

The Quick Receipt contains the basket total, fuel authorization amount, pre-auth amount and credit card details. When fueling completes the customer can return for the complete receipt which contains the final charge amount and fueling details.

## Signature on Credit Pre-Authorization Only

Fuel only and fuel with merchandise credit sales are conducted with a pre-authorization. If **Always Sign** is set to **Yes**, a signature will only be captured when the customer presents their card for pre-authorization. The PAX will no longer ask for a signature on the post-authorization. The signature will be printed on the final receipt as displayed above.

**Note:** Signatures are only captured for swipe or manual entries. A signature is not captured for chip or contactless transactions.

## Store Configuration
