

Changes for Kiosk Merchants in the Upcoming Release

I. Tipping on the Kiosk

- Merchants can now invite their customers to leave tips for orders taken on the kiosk.

A) Enabling Tipping on the Kiosk

- On the Merchant Portal, Navigate to the “Ecommerce and Kiosk” tile > “Kiosk” tab, and flip the “Enable Tipping on Kiosk” switch.

B) Customer Experience for Tipping on the Kiosk

- The checkout screen will now have a tipping section below Order Comments, and above the “Pay” Option
- If the customer selects one of the preset tip percentage of “10%”, “15%” or “20%”, the amount of their tip will appear below the percentage button
- They may also tap “Other” to leave a customer tip amount, or tap the “No Tip” button to skip tipping entirely

The screenshot displays a mobile app checkout interface. On the left, there are input fields for 'Name*' (containing 'Big tipper'), 'Mobile Phone*' (containing '(222) 555-1999'), and a text area for 'Your Order Comments'. Below these is a 'Tip' section with the text '100% of your tip goes to the store's employees'. It features five buttons: '10%', '15%', '20%', 'Other' (highlighted in purple), and 'No Tip'. A '\$10.00' input field is positioned below the 'Other' button. A large green 'Pay' button is at the bottom, with a smaller 'Or pay at register' button below it. On the right, a 'Your Order' summary table is visible.

Qty	Description	Total
10	Reynolds Wrap Aluminum Foil	\$21.90 \$2.19/each
Summary		Total
Subtotal *		\$21.90
Tip *		\$10.00
Total *		\$31.90

By entering your phone number and pressing "Tip" or "Or pay at register" you consent to our Terms & Conditions, Privacy Policy, California Consumer Privacy Notice, and Google Privacy Notice, and to receiving automated text messages from Inlogix Retailer New from Inlogix (powered by National Retail Solutions) regarding your orders at that number. Consent is a necessary condition of your order, and you can opt-out any time. Msg/Data rates may apply.

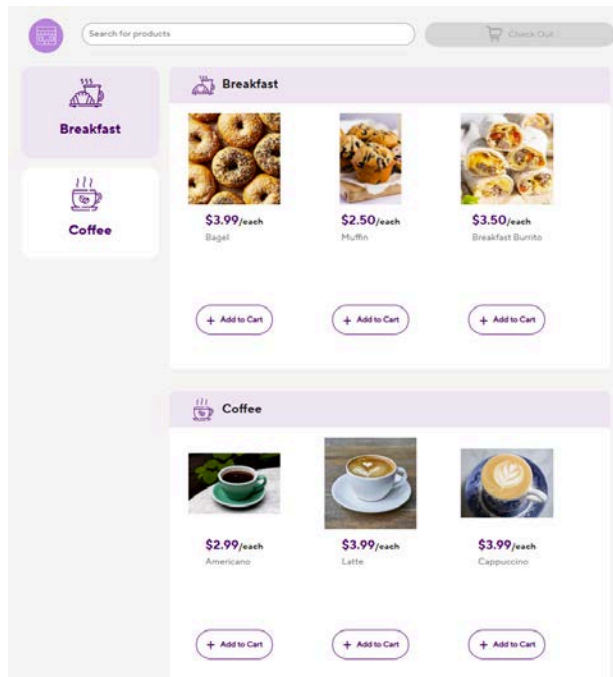

C) Tipping in Reports

- You can find your tips in the “Tip Payment Details” and “Tip Server Details” sections on the right side of various reports including Store Report, Shift Report and Terminal Statistics.
- Note that tips taken on the kiosk will appear as “unassigned” as there is no cashier associated with the kiosk.

Data	Store Report	Shift Report	E-commerce	Kiosk	Loyalty	Print

Total No Sales				None					

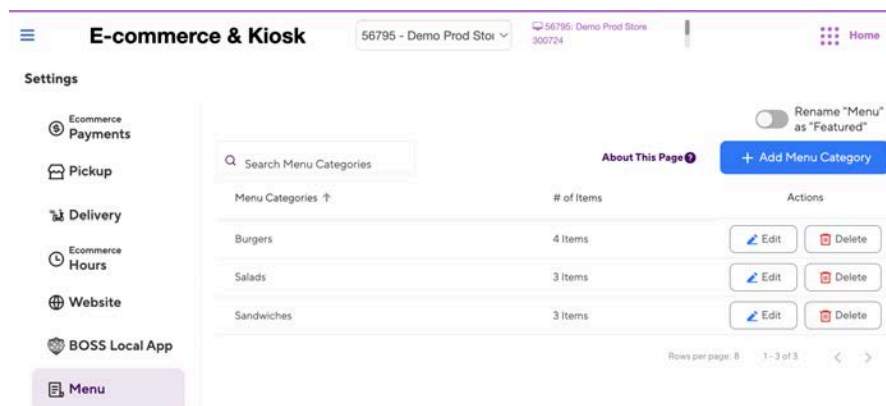

II. MENU BUTTONS AND ICONS

- We have significantly redesigned the Menu page on the Kiosk to make it more visually pleasing to your customers and easier to navigate.
- The category bar has been moved to the left side of the screen and features large buttons with space for icons.
- In “Menu Only” mode, only 3 product tiles will be displayed in each row. In “All Items” mode we will continue to show 4 product tiles per row.

To prepare for this release, you will need to select icons for your categories from our icon library in the Merchant Portal.

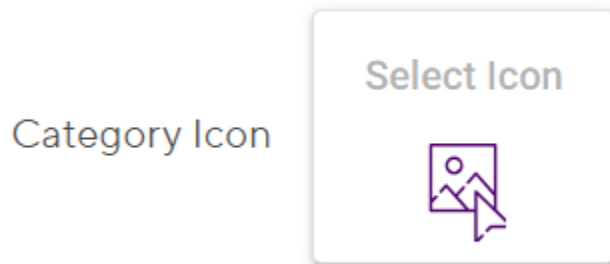

1. Navigate to the “E-commerce and Kiosk” tile > “Menu” tab:

2. Click "Edit" next to a category name

3. Click on the "Select Icon" box in the upper right corner

4. Click on the desired icon in the library of icons that appears below.

< Add Menu Category

Menu Category Name

Select a Category Icon

5. Click on the blue “Select Icon” button at the bottom of the screen.

6. Click on the blue “Save Category” button at the bottom of the Category Page.

7. Repeat steps 2-6 for each of your menu categories

III. PAID STAMP ON KITCHEN TICKETS

- The Receipts sent to your kitchen (ip) printer will now display whether a kiosk order has been paid for or not.
 - Paid orders will display the label “PAID”
 - Unpaid orders will display the label “PAYMENT REQUIRED”

IV. Bug Fixes

We have made various improvements around printing to prevent issues our customers may have seen including printers not saving, duplicate printing and incorrect Paid stamps on payment receipts printed at the Kiosk
