

Release Notes

Release Version– release/mis-acorn-v2.10.16

Release Date: 13/03/2025

Prepared By: Sridevi Reddy

Release Overview:

This release introduces key enhancements to improve order searchability and customer information visibility in ACORN:

- **Customer Notes** – Customer notes are now displayed separately by store under the Customer Details section in ACORN, making account history clearer and easier to review during research.
- **Enhanced Search on Order Screen** – Users can now search for orders using the Sales Rep's name, improving search flexibility.
- **Special Instruction Updates** – The Special instructions can now be updated anytime until order is completed.
- **Emojis** - Added emojis to all of the premium feature email subjects.

Apart from various bug fixes and minor enhancements, these are the major features included in this release.
