

New Flyer

The Ecommerce website flyer has received a new design. One of its features is that the flyer will present when a store provides a first order discount. If it does not, this will be hidden.

PLU Number

PLU number is now shown in Order Management if the number exists. When Replacing items, PLU's can also be searched (single or double digit PLU's require adding zeroes before the digit).

REPLACE ITEM ✕
Enter the UPC or item name. Then select the replacement item.

Show or Hide Points on NRS Storefront -

The **Points** section is hidden in the Ecommerce website when the **Active Points** toggle is **off**, and only **Clubs** will be visible. Both **Points** and **Clubs** will be visible when the **Active Points** toggle is **on**.

Tip Enhancements

There is now a limit to the custom tip input in the Ecommerce website that does not exceed 100% of the subtotal. There is also an option to provide a Delivery Tip for My Team as well as a Store Tip that will be reflected in Order Management. .
