

# Panther POS

## Public Release Notes 1.1.51

---

### What's New

#### Features

- **Products Bulk Actions:**

You can now select multiple products at once to make bulk changes in a single step. The Actions supported are: Pricing, cost, inventory, adding a new promotion, changing department and deleting multiple products.

#### Enhancements

- **Connection to NRS Cloud Main Products Database:**

Now when the user add a new product, scanning/entering the upc Panther will look at up in the NRS data and retrieve all existing information from the cloud to the form

- **Reporting:**

Panther added the share option to reports main screen.
