

Panther POS

Public Release Notes 1.1.50

Features

- **EBT Payment Support:**

EBT (NRS Pay only) is now available as a payment option in Panther POS.

Merchants can configure EBT acceptance in their settings, including how to manage mixed baskets and designate products for EBT payment at both the product and department levels.

- **Anti-Theft Alerts:**

Panther now includes support for NRS Anti-theft alerts. If a store has this feature enabled and the merchant has activated it within the merchant portal, any flagged transaction processed by

Panther will trigger a push notification to the merchant's app, informing them of the event.

- **Tipping Reports:** a new screen for tipping data in the panther reporting system. This dashboard will show the store tipping information, tips by store users and tips by payment method A new tipping data screen has been added to the Panther reporting system. This dashboard provides comprehensive tipping information, including store-wide data, tips attributed to individual store users, and a breakdown of tips by payment method.
