\*NRS does not provide support for weight calibration - retailer should contact its state or local office of Weights and Measures regarding calibration and all applicable state and local scale regulations that apply to its business. Eatnet is a certified partner of National Retail Solutions, Inc. (NRS), for providing and servicing scales. The referenced scale names/models have been tested by NRS and can be integrated with the NRS POS unit. NRS does not provide installation support, service or warranties for any independently purchased scale; only basic guidance on connection to the POS unit will be provided. To ensure precise measurement performance, the NRS POS unit can only process weights up to 50 lbs.
