

# Panther .54 Release Notes

April 2026

---

## Pizza Creator

A new **Product** type was added and the ability to create it, is called **Pizza Creator** that allows creating your own pizza type product. This creation process has three sections: **Basic Information**, **Modifiers**, **Groups**, and **Promotions**.

## Pizza Product View

A unique screen to view and edit all pizza related data that was entered in the **Pizza Creator**.

## Pizza Builder Support in Register

A method in the **Register** that allows building your own pizza according to the modifiers set in the **Pizza Creator**, and add it to the basket.

## Dine in Enhancement (Delivery)

There is now a third **Dine in** option: **Delivery**. This appears in **Print to Kitchen** and in the **Basket**.
