

Acorn 2.1

Release Notes

3/26/26

- **Petro Upgrade Process**
- **Order Submission- Add Terminal**
- **Store type Added Into Application Process**

Petro Upgrade Process

The ACORN upgrade flow is enhanced to support upgrades to Petro, in addition to existing Puma to Cheetah upgrades. The process covers both non-NRS Pay and NRS Pay stores. Users can select Petro products, hardware, and bundles, and submit the application through ACORN. The application goes through approvals, contract signing, and installation before the store is upgraded to Petro.

The screenshot displays the NRS ACORN web application interface. At the top, there is a blue header bar with the NRS ACORN logo on the left and a "Signout" button on the right. Below the header, a progress bar indicates four steps: 1. ORDER, 2. SELECT HARDWARE, 3. PAYMENT (PLAN / METHOD), and 4. RECURRING CHARGES. The current step is "SELECT HARDWARE".

The "SELECT HARDWARE" section is divided into two main areas. On the left, there is a "SELECT HARDWARE" form with the following fields:

- No. of POS***: A dropdown menu showing "1".
- Product***: A dropdown menu with "POS" and "Petro" options. The "Petro" option is highlighted in blue.
- Terminal***: A dropdown menu with the text "Select terminal ...".
- BYOE**: A checkbox that is currently unchecked.

On the right, there is an "ADDITIONAL ITEMS" table. The table has columns for "Please Select", "Item", "Item Cost", and "Qty". The table is organized into sections:

- INSTALL SERVICES**:
 - ☐ In-Person POS Installation (U.S. ONLY) \$ 174.95 0
 - ☐ Pricebook Upload \$ 174.95 0
 - ☐ Menu Creation \$ 174.95 0
- INTERNET ACCESSORIES**:
 - ☐ 8 Port Gigabit Ethernet Switch \$ 29 0
 - ☐ Wifi 6 Mesh Router – 2 PACK \$ 200 0
 - ☐ STANDARD Internet Failover Router (U.S. ONLY) \$ 349 0
- PANTHER HARDWARE**:
 - ☐ Panther Accessory Pack - For Tablet POS \$ 400 0
 - ☐ Panther Tablet Stand \$ 59 0
 - ☐ Panther USB Hub \$ 25 0
 - ☐ Tablet for Panther \$ 159 0

At the bottom of the table, there is a section for "POS PARTS" which is partially visible.

Order Submission- Add Terminal

We have enhanced the order submission flow for adding terminals by restricting edits to existing store and owner information. The first page contract details should be grayed out and non-editable. This ensures that sales reps cannot modify existing data while adding a new unit. The change maintains data consistency during the upgrade process.

Except **Location And Equipment** and **Sales Rep Checklist** remaining fields are grayed out

Store Type - Have Store Type in Acorn "Pizzeria"

We have introduced new store types in Acorn to support the Pizzeria vertical and improve tracking of sales and market penetration. Update existing labels by renaming “Restaurant or Pizzeria” to “Quick Service Restaurant.” Add new options in the “Kind of Business” dropdown, including Quick Service Pizzeria, Table Service Restaurant, and Table Service Pizzeria. This enhances classification and reporting for different business types.

(†) By entering my cell phone number and clicking "NEXT" below, I agree to receive automated text messages from NRS at that number regarding my contract and account. I also consent to NRS contacting me by recurring email or calling me at the number listed herein by text message, direct dial, using an automated system or prerecorded voice, and/or using artificial intelligence to discuss NRS's products and services. Consent is not a condition of purchase or required to receive any service, and you may opt out at any time. Message and data rates may apply. Message frequency varies. My consent outlined here survives termination of this Contract.
